

GYBR

13m · 

Update on GYBR 2022. Recently we floated the idea of running a DIY event this year which has had a fairly negative response so we have decided to shelve any ideas of running an event of any kind in 2022.

We are now going to concentrate on getting the new website up and running and a new entry and payment system online for you to use and start taking entries for a return of the GYBR proper in 2023 which should be on the 17th of June 2023.

Please bear in mind that this event costs a great deal of money to stage and our ability to deliver the event for you in 2023 will rely on us getting enough entries in to fund it. The Tour de France and Tour de Yorkshire did a lot for cycling in Yorkshire but didn't do a lot for the GYBR. All of a sudden everyone wanted to do a pretend race and the appeal of a fun day out and fundraising for charity suddenly didn't seem to be so appealing. I'm hoping we can reverse that trend for 2023 and get this great event back on the road.

I've missed it - I hope you have too.

Further updates soon. All current entries for 2020/21/22 will be carried over to the 2023 entry list.

Many thanks. John T
