

Website accessibility statement

Wetherby Lions' commitment to website accessibility

We are committed to making our website as accessible as possible, it is tested for accessibility every 3 months.

We want everyone to be able to use it, no matter what their impairments and which technologies they use.

Adapting your experience to your needs

We have made the site as usable as we can, but you might have a better experience if you change the settings on your computer to suit your individual needs.

For example you might change the site's colours, increase the text size, or have the site spoken aloud.

For help customising your experience using accessibility features already on your computer, or by installing extra assistive technologies, try these sites:

- AbilityNet's [My Computer, My way](#) ;
- The Web Accessibility Initiative's [Better Web Browsing: Tips for Customising your Computer](#)

Known problems with this site's accessibility

We know that there are some accessibility problems with this site, and we are going to fix them as soon as we can.

We are currently working to fix:

- some websites we link to may not have been tested for their accessibility;
- some of our older PDF documents may not work correctly with screen readers;
- Most but not all of our videos are understandable by people with vision impairments without audio-description;

Contact us if you have problems using this site

We are always looking to improve the accessibility of our site, so if you find anything on the site difficult to use <https://www.wetherbylions.org/contact>

To help us understand the problem as quickly as we can, please tell us:

- the web address or title of the page where you found a problem
- what the problem is
- what computer and software you use.

All constructive feedback about the accessibility or usability of our site is welcome and we promise to consider it carefully.

This accessibility statement was last updated in January 2020 and follows the advice on accessibility statements in [British Standard BS 8878](#).
